

# Voices

## Disturbed

[Intro]

So, are you breathing?  
So, are you breathing?  
No, no, are you breathing?  
So, are you breathing? No!

[Verse 1]

Wake up, are you alive? Will you listen to me?  
I'm gonna talk about some freaky shit, now  
Someone is gonna die when you listen to me  
Let the living die, let the living die, say!

Wake up, are you alive? Will you listen to me?  
I'm gonna talk about some freaky shit, now  
Someone is gonna die when you listen to me  
Let the living die, let the living die, say!

[Chorus]

Are you breathing? No, do the wicked see you?  
You still breathing? You're making me known  
Are you breathing? No, do the wicked see you?  
You still breathing?

[Verse 2]

So, what's up? I wonder why do you listen to me?  
I'm gonna make you do some freaky shit, now  
Insane, you're gonna die when you listen to me  
Let the living die, let the living die, say!

What's up? I wonder why do you listen to me?  
I'm gonna make you do some freaky shit, now  
Insane, you're gonna die when you listen to me  
Let the living die, let the living die, say!

[Chorus]

Are you breathing? No, do the wicked see you?  
You still breathing? You're making me known  
Are you breathing? No, do the wicked see you?  
You still breathing?

[Interlude]

So!

"Can't you imagine how good  
Going through this will make you feel?  
I promise, no one will ever know  
There will be no chance of you getting caught  
They never loved you, anyway  
So, come on, be a man  
And do what you are compelled to do"

Save me, God!

[Bridge]

I can hear the voice, but I don't wanna listen  
Strap me down and tell me I'll be alright  
I can feel the subliminal need to be one with the voice  
And make everything al-

I can hear the voice, but I don't wanna listen  
Strap me down and tell me I'll be alright  
I can feel the subliminal need to be one with the voice  
And make everything alright

[Chorus]

Are you breathing? No, do the wicked see you?  
You still breathing? You're making me known  
Are you breathing? No, do the wicked see you?  
You still breathing?

[Outro]

So, are you breathing?  
So, do you breathe? No, no!  
So, are you breathing?  
So, do you breathe? No!
