Live Forever (feat. Cheat Codes)

[Liam Payne](#)

Jaded, faded
Self-medicated
I didn't know I was waiting for you, yeah, yeahBroken, smoking
'Til you came into focus
Sobered me up off of one hit of youWasn't even tryna chase a high
I just didn't wanna feel so low, low, low
Know I'm gonna miss the crazy nights
But you made me wanna let it all go
I was always gonna live fast, die young
Slow down when you came along, yeah
Burn bright, burn out
But now you make me wanna live forever
All that runnin', gonna give it up for you
Nothing ever get me high like you do
Some way, somehow
You and I, we're gonna live foreverForever
You and I, we're gonna live foreverWreckless, restless
I let it get so hectic
All the way up with my head in the sky, yeah, yeah
Too much, too gone
Too many, too fun
I don't know how but I got out alive
Wasn't even tryna chase a high
I just didn't wanna feel so low, low, low
Know I'm gonna miss the crazy nights
But you made me wanna let it all goI was always gonna live fast, die young
Slow down when you came along, yeah
Burn bright, burn out
But now you make me wanna live forever
All that runnin', gonna give it up for you
Nothing ever get me high like you do
Some way, somehow
You and I, we're gonna live foreverForever
You and I, we're gonna live forever
Some way, somehow
You and I, we're gonna live foreverThe party's over, let the good times roll
But we're still gonna lose control
Lose my mind, getting high on you
High on you
The party's over, let the good times roll
But we're still gonna lose control
Lose my mind, getting high on youYou and I, we're gonna live forever

Forever and ever
You and I, we're gonna live forever
Forever and ever
You and I, we're gonna live forever
Forever and ever
You and I, we're gonna live forever
Forever and ever
You and I, we're gonna live foreverLive fast, die young
Slow down when you came along, yeah
Burn bright, burn out
But now you make me wanna live forever
