

Behind Those Eyes (iTunes Originals Version)

3 Doors Down

Ohh yeah
Ohh yeah You said "I got something to say"
Then you got that look in your eye
"There is something you've got to know"
You said it as you started to cry "I've been down the wrong road tonight
And I swear I'll never go there again"
I've seen this face once before
And I don't think I can do this again
There's something I can't see
There's something different in the way you smile
Behind those eyes you lie
And there's nothing I can say
'cause I'm never gonna change your mind
Behind those eyes you hide As you turned to walk away
I saw another look in your eye
And even though it hurt like it did
I couldn't let this be your goodbye. You say that you're sorry
And you say now that it hurts you the same
Is there something here to believe
Or is it just another part of the game? Ohh yeah
Oh
Ohh woah
Behind those eyes you lie
Behind those eyes you hide There's nothing I can say
That's ever gonna make you change your mind
Behind those eyes you hide Behind those eyes you hide
