

# Celebrate

## Empire of the Sun

[Verse 1]

We followed what the symbols said  
Held each other to till breaking day  
I've opened up like I never planned  
Showed me how to love again

You carved a path to my heartland  
You sailed along a foreignwave  
All the winds are changing our flavour  
Cross the ocean way

[Chorus]

We celebrate, we celebrate our love  
We celebrate our love  
We celebrate, we celebrate our love  
We celebrate our love

[Verse 2]

Drawing the pictures of our lives  
Watch and wonder as they come alive  
The characters become my friends  
As the empire begins to rise

Something gains its place now  
After floods have washed away  
Just love someone more than yourself  
Give yourself away

[Chorus]

We celebrate, we celebrate our love  
We celebrate our love  
We celebrate, we celebrate our love  
We celebrate our love

[Bridge]

History begins with you and I  
I long to be right by your side  
Watching how you feel  
Lives within your love

[Chorus]

We celebrate, we celebrate our love  
We celebrate our love  
We celebrate, we celebrate our love  
We celebrate our love

We celebrate, we celebrate our love  
We celebrate our love  
We celebrate, we celebrate our love  
We celebrate our love
