

# Battle Lines

Bob Moses

[Verse 1]

Don't lie

You're always saying your hands are tied

And when we cry

You only have yourself in mind

[Pre-Chorus 1]

Whatever we do

Seems like nothing is getting through

You're out of touch

You know that's not enough for us

[Chorus]

When the bullets fly

You turn your eyes

Like there's nothing left to lose

Now the battle lines are drawing closer to you

Look inside

What will you find?

'Cause we won't let it go this time

We've paid no mind

But you can't hide

If you're on the other side

[Verse 2]

Oh well

Now you've got a tale to tell

And fear to sell

But we're still here living through hell

[Pre-Chorus 2]

Whatever you do

Know that we'll be watching you

We'll see this through

There's no more hiding from the truth

[Chorus]

When the bullets fly

You turn your eyes

Like there's nothing left to lose

Now the battle lines are drawing closer to you  
Look inside  
What will you find?  
'Cause we won't let it go this time  
We've paid no mind  
But you can't hide  
If you're on the other side

[Guitar solo]

[Chorus]  
When the bullets fly  
You turn your eyes  
Like there's nothing left to lose  
Now the battle lines are drawing closer to you  
Look inside  
What will you find?  
'Cause we won't let it go this time  
We've paid no mind  
But you can't hide  
If you're on the other side
