

Downtown's Dead

Sam Hunt

[Intro]

Thanks, Hannah, thanks for coming back

[Verse 1]

The city's so in style

All you see for miles are people spilling in and out of cars

Man, all of these bars are making a killin'

Everywhere I go looks like the place to be

I see people that I know, but I feel like there's no one here but me

[Chorus]

Downtown's dead without you

Girls walk by and friends say hi

But Friday night, it might as well be just another

Tuesday night without you

As long as you're still in my head

There ain't no way that I can paint a ghost town red

Downtown's dead, downtown's dead, yeah

[Verse 2]

They're dancing in the strobes

Out here in the throes of loud house music

Everything's a blur

I don't hear the words, but lips are moving

Tried to get involved, but I've 'bout had enough

People wall to the wall

And I'm just holdin' it up 'cause

[Chorus]

Downtown's dead without you

Girls walk by and friends say hi

But Friday night, it might as well be just another

Tuesday night without you

As long as you're still in my head

There ain't no way that I can paint a ghost town red

Downtown's dead, downtown's dead

[Bridge]

Free drinks, bright lights

What am I doing with my life?

Okay, I quit, I've had enough of this
'Cause people are losing their minds
Can't get you out of my head
I'm calling it a night
I'm crawling back to your bed

[Chorus]

Downtown's dead without you
Girls walk by and friends say hi
But Friday night, it might as well be just another
Tuesday night without you
As long as you're still in my head
There ain't no way that I can paint a ghost town red
Downtown's dead, downtown's dead

[Outro]

Downtown's dead
