

Drive All Night

NEEDTOBREATHE

[Chorus]

I ain't lookin' for a free ride home
Back to the middle
I need a new locale
I need a girl that calls me baby
I need to know if she can save me
I need somewhere I can drive all night
Out into the darkness
Follow the headlights down
I gotta know if they can take me
I gotta know if they can save me

Whoa

Whoa

[Verse 1]

Focus in on every word
Change my path
Maybe I could leave a mark
Try and prove the poets wrong
There must be time
Maybe we could be the song
To march us on

[Chorus]

I ain't lookin' for a free ride home
Back to the middle
I need a new locale
I need a girl that calls me baby
I need to know if she can save me
I need somewhere I can drive all night
Out into the darkness
Follow the headlights down
I need to know where they can take me
I gotta know if they can save me

Whoa

Whoa

[Verse 2]

Beg the book to turn the page
Cause I get stuck where the villains get away
Somewhere in this wretched tale, there must be a line
Where the victim gets his way
Just one time
I'll get mine

[Chorus]
I ain't lookin' for a free ride home
Back to the middle
I need a new locale
I need a girl that calls me baby
I gotta know if she can save me
I need somewhere I can drive all night
Out into the darkness
Follow the headlights down
I need to where they can take me
I gotta know if they can save me

[Outro]
Whoa
Drive all night
Yeah baby just hold on tight
Oh and you can close your eyes
Yeah and we can say goodbye

Oh we can drive all night
Yeah just hold on tight
Baby just close your eyes
Yeah and we can say goodbye

Whoa
Baby we can say goodbye
Whoa
