

Cut the Cord

Shinedown

(Freedom, la la la la.)
(Freedom)
Cut it!
(Freedom, la la la la.)
(Freedom, follow me.)
(Freedom, la la la la.)
(Freedom) Let me tell you, I'm vicious
Not pass-aggressive
I got my finger on my pulse
Staring straight into a hole and I get it And I'm a savage
It's automatic
I got a way of making noise
The power to destroy with no static
'Cause victory is all you need
So cultivate and plant the seed
Hold your breath and count to ten
Just count to ten I'm gonna make it rain So ring the bell
I know it all too well
Switchblade on the edge of your wrist
Can I get a witness? (witness)
'Cause agony brings no reward
For one more hit and one last score Don't be a casualty
Cut the cord!
(Freedom, la la la la.) (Freedom, follow me.)
Cut the cord!
(Freedom, la la la la.)
(Freedom)
You gotta feel courage
Embrace possession
If it was easier to shatter everything that ever mattered
But it's not because it's your obsession
Be a fighter Backbone, desire
Complicated and it stings
But we both know what it means And it's gonna get real and inspired
'Cause victory is all you need
So cultivate and plant the seed
Hold your breath and count to ten
Just count to ten (just count to ten)
I'm gonna make it rain
So ring the bell
I know it all too well
Switchblade on the edge of your wrist

Can I get a witness? (witness)
'Cause agony brings no reward
For one more hit and one last score
Don't be a casualty
Cut the cord!
Cut it!
Cut it!
'Cause victory is all you need
So cultivate and plant the seed
Hold your breath and count to ten
Just count to ten
I'm gonna make it rain
So ring the bell
I know it all too well
Switchblade on the edge of your wrist
Can I get a witness? (witness)
'Cause agony brings no reward
For one more hit and one last score
Don't be a casualty
Cut the cord!
Don't be a casualty
Cut the cord!
(Freedom, la la la la.)
(Freedom, follow me.)
Cut the cord!
(Freedom, la la la la.)
(Freedom, follow me, me me.)
