

Just Outside of Austin

Lukas Nelson & Promise of the Real

Cedar trees, the morning air, the way the dew sits on her hair
So peacefully below a Texas sky
I think I'll leave her lying there
Take a walk I don't know where
Just bathin' in the sunlight in my life

I hear the sound of windy leaves
Summer birds are gently flowing
River's creeks and pools up form the spring
The music of the water on the rocks is getting louder
As I walk towards whatever life may bring

Just outside of Austin
High as I've ever been
Just outside of Austin
I think I fell in love with you again

I went out to play the other day
The city and and it's city ways
A time and place for everything you'd say
But I just wanna sit at home
Ride my horse or write a song
A little bit of weed and I'm okay

Those nights when it's just you and me
Or maybe soon we could be three
It ain't so bad a place to raise a kid
Or maybe we should wait a while
No need to hurry nothing
I'm just saying I'd be happy if we did

Just outside of Austin
High as I've ever been
Just outside of Austin
I think I fell in love with you again

Just outside of Austin
High as I've ever been
Just outside of Austin

I think I fell in love with you again

I think I fell in love with you again
