

# Cut Me Some Slack

Chris Janson

Girl, I gotta have you, gotta get you where I want you  
Know exactly what you're doin', don't you?  
Treat me like you like me, like you don't like me back I wish you'd give me the green light, give  
me just one night,  
Girl, if you don't like how I roll  
You can say, no thanks, don't ever call me  
Forget you ever saw me, forget my name  
Girl, you might just like some country road moonlight  
Dancing in the lights of my headache rack,  
Think about that, yeah think about that  
Is there any chance  
You could cut me some slack  
I know I got a wild side, wilder than a country mile ride  
I got a name around this town  
And girl, I don't really blame you for the things you might be thinkin'  
They're probably true but that ain't me now Give me the green light, give me just one night,  
Girl, if you don't like how I roll  
You can say, no thanks, don't ever call me  
Forget you ever saw me, forget my name  
Girl, you might just like some country road moonlight  
Dancing in the lights of my headache rack,  
Think about that, think about that  
Is there any chance  
You could cut me some slack Take me by the hand, believe me when I tell you  
That I never ever felt like this, girl  
And that's the truth  
Give me the green light, give me just one night,  
Girl, if you don't like how I roll  
You can say, no thanks, don't ever call me  
Forget you ever saw me, forget my name  
Girl, you might just like some country road moonlight  
Dancing in the lights of my headache rack,  
Think about that, yeah think about that  
Is there any chance  
That you could cut me some slack Oh oh oh, yeah  
Cut me some slack  
Oh oh oh, yeah
