

Take the Shot

Ruben Studdard

Ladies and gentlemen
The time is now (now)
Y'all all been waiting
We're gonna rock this now Oh yeah, ooh, oh yeah
(It dont matter) that I got a house
With a lot of rooms, sittin on a hill
(It dont matter) that I got cars
In my garage sittin on a lot of rims
(It dont matter) that everywhere I go
Girls be screamin my name
Material things come and go
Im just tryin to let ya know
(That I) wanna make it right
(That I) need you in my life
Im down by two points
And a three can win the game
Watcha' gon' do girl (girl you got the ball)
Make a move girl (you got my heart)
Take the shot c'mon take the shot
Take the shot, c'mon
And win the game girl (girl you got the ball)
Cause its your world (you got my heart)
Take the shot c'mon take the shot
Take the shot c'mon take the shot (It dont matter) that you see me all the time in the club
(It dont matter) cause deep down inside
A playa wants some love
(It dont matter) that i can get a girl to come home with me,
But i dont do one night stands no more (no more)
Girl Im tryin' to let ya know
(That I) wanna make it right
(That I) need you in my life
Im down by two points
And a three can win the game
Watcha' gon' do girl (girl you got the ball)
Make a move girl (you got my heart)
Take the shot c'mon take the shot
Take the shot, c'mon
And win the game girl (girl you got the ball)
Cause its your world (your world)
Take the shot c'mon take the shot
Take the shot c'mon take the shot (You got it, you got it, you got it)
Girl just take it to the hole

(You got it, you got it, you got it)
My heart, my body, and soul
(You got the cream, you, you, you, you, you, you, you)
So make a move (so make a move)
Im down by two points and a three can win the game Watcha' gon' do girl (girl you got the ball)
Make a move girl (you got my heart)
Take the shot c'mon take the shot
Take the shot, c'mon
And win the game girl (girl you got the ball)
Cause its your world (you got my heart)
Take the shot c'mon take the shot
Take the shot c'mon take the shot Watcha' gon' do girl (girl you got the ball)
Make a move girl (you got my heart)
Take the shot c'mon take the shot
Take the shot, c'mon
And win the game girl (girl you got the ball)
Cause its your world (you got my heart)
Take the shot c'mon take the shot
Take the shot c'mon take the shot Ladies and gentlemen
The time is now (now)
Y'all all been waiting
We're gonna rock this now
Ladies and gentlemen
The time is now (now)
Y'all all been waiting
We're gonna rock this now Said your gonna take,
Said your gonna take,
Said your gonna take,
Said your gonna take,
Said your gonna take,
The shot, the shot
