

# Better Luck Next Time

Kelsea Ballerini

One sided  
Everything about your love was one sided  
Didn't cover it up or disguise it  
You used my dream against me to tie me  
To you Two years too many we tried to get it right  
Hit like a shot of tequila without the lime  
You've got your reasons and yeah I got my rhymes  
So this time  
This time  
I got myself together  
Got a new attitude  
Hope that I see you never  
I'm so over you  
Got myself together  
You're out of my mind  
Now all that I can say is  
Better luck next time  
Better luck next time We tried it  
But when two hearts don't light up you can't fight it  
And in every storm there's still silver linin'  
And with everyday that passes I find it  
I got myself together  
Got a new attitude  
Hope that I see you never  
I'm so over you  
Got myself together  
You're out of my mind  
Now all that I can say is  
Better luck next time Blame on mistakes  
But we had to roll the dice  
Now all that I can say  
Is better luck next time  
Yeah  
Better luck next time I got myself together  
Got a new attitude  
I better see you never  
I'm so over you  
Got myself together  
You're out of my mind  
Now all that I can say is  
Better luck next time

Better luck next time
