

# Kiss Tomorrow Goodbye

Luke Bryan

All we do right is make love  
We both know now it ain't enough  
Ain't gonna beg you to stay  
God I ask you where's from  
Ain't no reason running for something is already gone  
Take up your leave in dress  
Let's do what we do best  
I guess everybody's got a way of moving on  
Girl rest your head one more time in my bed  
Love me like you loved me when you loved me And you didn't have to try  
Let's lay down tonight  
And kiss tomorrow goodbye  
Baby who we are just didn't work  
But maybe we can leave with something out of all this hurt  
Ain't gonna beg you to stay  
Ain't gonna ask you what's wrong Ain't no reason running for something is already gone Take up  
your leave in dress  
Let's do what we do best  
I guess everybody's got a way of moving on  
Girl rest your head one more time in my bed  
Love me like you loved me when you loved me  
And you didn't have to try  
Let's lay down tonight  
And kiss tomorrow goodbye  
Ain't gonna beg you to stay  
Ain't gonna ask you what's wrong  
Ain't no reason running for something is already gone  
Take up your leave in dress  
Let's do what we do best  
I guess everybody's got a way of moving on  
Girl rest your head one more time in my bed  
Love me like you loved me when you loved me  
And you didn't have to try  
Let's lay down tonight  
And kiss tomorrow goodbye  
Let's kiss tomorrow goodbye.
