

Party All Night (Sleep All Day)

Sean Kingston

We like sleep all day
and party all night.
This is how we like
to live our life. Hands up!
Oh, oh, let's go! It's an illusion, yeah
Ain't no time for seclusion, yeah.
Come on and put the bottle in your hand
until you can't stand it, just rock it.
Ohhh So much confusion, yeah cause everybody is losing it.
It's feeling like the best of our nights
with the flashing light, and we rock it. Ohhhh And we don't let our worries inside
until it gets bright outside, We're breaking all the rules that we know
We're out of control
We rock it, we roll
and nothing gonna ever stop the body you know, we go, we go
We like sleep all day
and party all night,
this is how we like
to live our life,
I've gotta feeling that everything
is gonna be alright
so come on, come on, come on
We like sleep all day
and party all night,
this is how we like
to live our life,
I've gotta feeling that everything
is gonna be alright
so come on, come on, come on
Let's party tonight
Designation yeah, the feel of liberation,
We're going like the rebels in the cars,
and we're breaking the laws,
and we rock it,
ohhh
No hibernation, no
no light until the day comes, no
We gonna paint the town red till
god knows when cause we rock it
ohhh
And we don't let our worries inside,
until it gets bright outside

we break all the rules that we know
we're out of control
we rock it, we roll
and nothing gonna ever stop the body
you know, we go, we go
We like sleep all day
and party all night,
this is how we like
to live our life,
I've gotta feeling that everything
is gonna be alright
so come on, come on, come on
We like sleep all day
and party all night,
this is how we like
to live our life,
I've gotta feeling that everything
is gonna be alright
so come on, come on, come on
We gonna rock until the night is done,
We ain't gonna stop until we see the sun,
and we don't ever have a problem
no need for solutions
we're starting up the revolution
We like sleep all day
and party all night,
this is how we like
to live our life,
I've gotta feeling that everything
is gonna be alright
so come on, come on, come on
We like sleep all day
and party all night,
this is how we like
to live our life,
I've gotta feeling that everything
is gonna be alright
so come on, come on, come on
Let's party tonight, whoaa
