

Don't Get Better Than That

LOCASH

Ever caught a buzz floating down a river?
Ever looked in her eyes and seen forever?
Ever smell the air right after the rain? Ever gone back home just for mama's cooking?
Ever hit that shot when everybody's looking?
Ever felt that rush from a leap of faith?
Yeah, it don't get better than Rolling with a full tank, wasting gas
Sipping on a sunset, crushing cans
Little Nitty Gritty turned up full blast
Yeah, it don't get better than that
Raising all the hell on Friday night
Holding on your honey under neon lights
Knowing where you've been, loving where you're at
Yeah, it don't get better than that
Ever heard the words, "I love you, daddy"?
Felt the waves touch your toes off the coast of Cali
Lost count counting stars 'cause there's just so many in the sky
And don't they look good tonight? Rolling with a full tank, wasting gas
Sipping on a sunset, crushing cans
Little Nitty Gritty turned up full blast
Yeah, it don't get better than that
Raising all the hell on Friday night
Holding on your honey under neon lights
Knowing where you've been, loving where you're at
Yeah, it don't get better than that
Yeah, it don't get better than that Ever found the truth on a Sunday morning?
Ever go all in when you're free falling?
Feel like you're right where you're meant to be
Like you and me
Rolling with a full tank, wasting gas
Sipping on a sunset, crushing cans
Little Nitty Gritty turned up full blast
Yeah, it don't get better than that
Raising all the hell on Friday night
Holding on your honey under neon lights
Knowing where you've been, loving where you're at
Yeah, it don't get better than that
(Yeah, it don't get better than that)
(Yeah, it don't get better than that)
(Yeah, it don't get better than that)
(Yeah) Yeah, it don't get better than, don't get better than that
