

Neverland

Prismo

I'm in my simple box
My close imagination sears me in
I've lost exciting thoughts
The [?]
Just take me out to neverland again So take me out to neverland, show me what's behind these
closed doors
To me what's real's what I can see
So take me out to neverland
Take me out to neverland
Take me out to neverland
So take me out to neverland, show me what's behind these closed doors
To me what's real's what I can see
So take me out to neverland, show me what's behind these closed doors
To me what's real's what I can see
So take me out to neverland
Take me out to neverland
Take me out to neverland
