

# Ritual (feat. Wrabel)

## Marshmello

You, you're givin' me life  
Givin' me all of you, mmm  
Oh it's true  
I'm losin' myself  
If only right next you, oh yeah You're something different  
Instead of breaking my heart, you're picking up all the pieces  
The way you're taking my heart  
You're making it still look easy  
But when I'm stuck in my head  
I'm staying in through the weekend, yeah, oh yeah  
Oh I, I never knew love, never knew love, never knew love  
Living without you, living without you  
Oh I, I don't feel lost, I don't feel lost, I don't feel lost  
Now that I found you, now that I found you  
So help me now  
Don't know what I'd do if I was without you  
Now, help me now  
Babe it's all true  
Now that I found you  
It's my ritual (It's my ritual)  
(Now that I found you)  
So help me now  
Don't know what I'd do if I was without you  
Now, help me now  
Babe it's all true  
Now that I found you  
My ritual  
You, first thing on my mind when I'm waking up there's you, oh yeah  
What I'll do  
You spin me around like color wheel, oh yes you do  
Oh yeah You're something different  
Instead of breaking my heart, you're picking up all the pieces  
The way you're taking my heart  
You're making it still look easy  
But when I'm stuck in my head  
I'm staying in through the weekend, yeah, oh yeah Oh I, I never knew love, never knew love,  
never knew love  
Living without you, living without you  
Oh I, I don't feel lost, I don't feel lost, I don't feel lost  
Now that I found you, now that I found you  
So help me now  
Don't know what I'd do if I was without you

Now, help me now  
Babe it's all true  
Now that I found you  
It's my ritual(Now that I found you)  
I never knew love, never knew love, never knew love  
Living without you, living without you  
Oh I, I don't feel lost, I don't feel lost, I don't feel lost  
Now that I found you, now that I found you Say you'll never let me go  
Cause I'm lost without my ritual
