OMG What’s Happening

Ava Max

Oh my God, what's happening?
Thought I was fine
I told you I don't need your love
Like three, four thousand times
But that's a lie
No, I can't look you in the eye
Oh why? Oh why?So I did everything to push you all the way
And finally you left and now I'm missing you like crazy
And I cry, no, I can't sleep alone
And I know why, oh why
Look what you've done, look what you've done to me
I got everything I wanted
But you're everything, you're everything I want
Look what you've done to me
Didn't know I was alone
Till I was running to you, right into your
Heart like magnets
Oh my God, what's happening?
Look what you've done, look what you've done to me
I got everything I wanted
But you're everything, you're everything I needI wanna tell you things and show you all the rest
Broadcast my emotions on the radio and take 'em off my chest
I hope you're listening
Are you? Are you?
I'll be spinning 'round in circles
Spinning 'round in circles
Writing in my journal 'bout you
Wonder if it's over
I ain't getting closer
Think it's time I told you the truth
(Hey, wait a minute)Look what you've done, look what you've done to me
I got everything I wanted
But you're everything, you're everything I want
Look what you've done to me
Didn't know I was alone
Till I was running to you, right into your
Heart like magnets
Oh my God, what's happening?
Look what you've done, look what you've done to me
I got everything I wanted
But you're everything, you're everything I needAh, what have you done to me?
Something about your face

I don't know whether to kiss it or punch it
If you don't get away from me right now
I swear to God, I swearLook what you've done, look what you've done to me
I got everything I wanted
But you're everything, you're everything I want
Look what you've done to me
Didn't know I was alone
Till I was running to you, right into your
Heart like magnets
Oh my God, what's happening?
Look what you've done, look what you've done to me
I got everything I wanted
But you're everything, you're everything I need
