

Alive

Sick Individuals

[Verse]

Black clouds forming
But we don't know what's coming
Wasteland's burning
But we don't feel like running

[Pre Chorus]

Ain't got nothing left
But your silhouette
A fire dancing in your eyes
Only you and I
And the satellites
Till it's gone with the sunrise

[Chorus]

So let's treat tonight
Like we're the only lovers left alive
Oh, so let's treat tonight
Like we're the only lovers left alive

[Verse]

Let's take shelter, oh, it's now or never

Time is fading we ain't got forever

[Pre Chorus]

Ain't got nothing left

But your silhouette

Desire, brighter than starlight

It's only you and I

And the satellites

Till it's gone with the sunrise

[Chorus]

So let's treat tonight

Like we're the only lovers left alive

Oh, so let's treat tonight

Like we're the only lovers left alive
