

Rock Steady

Aretha Franklin

[Verse 1]

Rock steady, baby!
That's what I feel now
Let's call this song exactly what it is
Step and move your hips
With a feeling from side to side
Sit yourself down in your car
And take a ride
And while you're moving
Rock steady
Rock steady, baby

[Chorus]

Let's call this song exactly what it is
(What it is - what it is - what it is)
It's a funky and low down feeling'
(What it is)
In my hips from left to right
(What it is)
What it is is I might be doing
(What it is)
This funky dance all night
Oh!
(Wave your hands up in the air)
Oh!
(Got the feeling and ain't got a care)
Oh!
(What fun to take this ride
Rock steady will only slide)

[Bridge]

Rock steady — rock steady, baby
Rock steady — rock steady, baby

[Verse 2]

Step and move your hips
With a feeling from side to side
Sit yourself down in your car
And take a ride
While you're moving rock steady

Rock steady

[Chorus]

Let's call this song exactly what it is
(What it is - what it is - what it is)
It's a funky and low down feeling'
(What it is)
In my hips from left to right
(What it is)
What it is is I might be doing
(What it is)
This funky dance all night
Oh!
(Wave your hands up in the air)
Oh!
(Got the feeling and ain't got a care)
Oh!
(What fun to take this ride
Rock steady will only slide)

[Bridge]

Rock steady, baby
Rock steady ... woo!
Rock steady

(Rock... steady!... rock... steady!)

[Chorus]

(What it is)
It's a funky and low down feeling'
(What it is)
In my hips from left to right
(What it is)
What it is is I might be doing
(What it is)
This funky dance all night
Oh!
(Wave your hands up in the air)
Oh!
(Got the feeling and ain't got a care)
Oh!
(What fun to take this ride
Rock steady will only slide)

[Outro]

Rock steady
Steady, baby!
Rock...rock steady, baby
Baby

(What it is)
Baby baby
(What it is)
Baby
(What it is)
Baby...
