

Basshead (feat. YG)

Far East Movement

Give me that bass, make it bang
Boom, boomCruising down town with me and my crew
Girls on the sidewalk, how do you do?
I like your bass, that's something to screw
If you're looking for a good time, follow the boomTrip to the liquor store then to the crib
Knock on the door, damn look who it is
It's the L.A. freaks with all that base
It's nothing like a hutchie with an 808
Pack that stump, [?] to the trunk
And girl is a basshead, let me see you pump it
Yeah, get wasted, to the, to the pavement
Let me see you pump it, girl you're a basshead
Girl you're a basshead, girl you're a bass head
Let me see you pump it girl, you're a basshead
Go girl you're a bass head, yeah you're a basshead
Let me see you pump it girl, you're a bassheadPop, pop [?] take a sip like [?] we the cool kids
Take a hit like cal on a cool hit
Cross fitted all day on the new shit
Tripping out when the bass look real fat
