Leave the Night On (Acoustic Mixtape)

Sam Hunt

They roll the sidewalks in this town
All up after the sun goes down
They say nothin' good happens here
When midnight rolls around
But layin' down would be in vain
I can't sleep with you on my brain
I ain't anywhere close to tired
Your kiss has got me wiredGirl, you got the beat right, killin' in your Levis
High on your lovin's got me buzzin' like a streetlight
It's still early out in Cali, baby, don't you wanna rally again
We'll find a road with no name, lay back in the slow lane
The sky is dropping Jupiter around us like some old train
We'll be rolling down the windows, I bet you we're catchin' our second wind
We don't have to go home, we can leave the night on
We can leave the night on
Now all the stars are turnin' blue
Just kissed the clock 2: 22
Baby, I know what you're wishin' forI'm wishin' for it too
Now all the lights are flashin' goldNobody cares how fast we go
Our soundtrack's in the stereo
This DJ's on a roll
Girl, you got the beat right, killin' in your Levis
High on your lovin's got me buzzin' like a streetlightIt's still early out in Cali, baby, don't you wanna rally again
We'll find a road with no name, lay back in the slow laneThe sky is dropping Jupiter around us like some old train
We'll be rolling down the windows, I bet you we're catchin' our second wind
We don't have to go home, we can leave the night on
We can leave the night on
The sun'll steal the magic from us soon
So let's take one more trip around the moon
Girl, you got the beat right, killin' in your Levis
High on your lovin's got me buzzin' like a streetlight
It's still early out in Cali, baby, don't you wanna rally again
We'll find a road with no name, lay back in the slow lane
The sky is dropping Jupiter all around us like some old train
We'll be rolling down the windows, I bet you we're catchin' our second wind
Babe we ain't gotta go home, we can leave the night on
We can leave the night on
