

Falling

Surfaces

[Alexa:]

Falling

Oh I fall so hard for you, for you

Falling

Oh I fall so hard for you, for you

You keep me in the middle

You keep me up all night

You solved my every riddle

You make it all just fine

Falling

Oh I fall so hard for you, for you

Falling

Oh I fall so hard for you, for you

You are the one I want

You are my endless light

You were the first to dawn

You have my hands of time

Falling

Oh I fall so hard for you, for you

Falling

Oh I fall so hard for you, for you

[Forrest:]

You made me stumble over my words

Had me tripped through my teeth

Grabbed an ice pack sack for the back ache

Cause I'm falling head over feet

You took me back to your garden

Told me never to leave

Just one taste was enough

Now I'm stuck here for eternity

[Alexa:]

Falling

Oh I fall so hard for you, for you

Falling

Oh I fall so hard for you, for you
