

Find an Island

BENEE

Find an island far away from me
A shipwreck lost at sea
Where nobody goes, no search party Nobody knows but me Both shared a single rope
Trying to stay afloat
The treasure that you blew
When I was tied to you We reeled each other in
Got caught up in the wind
Our sails, they pulled too hard
And we fell off our raft If our own mistakes are too much to take
If this just won't work and we can't find a way
Maybe our maps go different ways, go different ways
Find an island far away from me
A shipwreck lost at sea
Where nobody goes, no search party
Nobody knows but me Find an island far away from me
A shipwreck lost at sea
Where nobody goes, no search party
Nobody knows but me Find an island
Find an island Slowly you drifted off
Putting us on the rocks
No longer want to know
Where you make plans to go I built this boat to last
You chose to move too fast
A storm has swept right through
And washed away of you
If our own mistakes are too much to take
If this just won't work and we can't find a way
Maybe our maps go different ways, go different ways Find an island far away from me
A shipwreck lost at sea
Where nobody goes, no search party
Nobody knows but me Find an island far away from me
A shipwreck lost at sea
Where nobody goes, no search party
Nobody knows but me Find an island
Find an island And if our own mistakes are too much to take
If this just won't work and we can't find a way
Maybe our maps go different ways, go different ways Find an island far away from me (far
away from me)
A shipwreck lost at sea (at sea)
Where nobody goes, no search party (party)
Nobody knows but me Find an island far away from me (away from me)
A shipwreck lost at sea (at sea)

Where nobody goes, no search party (party)
Nobody knows but me
