

I Like Them Girls

Tyrese

I like them girls
I like them girls
I like them girls
I like them girls get a call from my crew this weekend
talkin bout a party said it's gonna be crackin
since imma drive the porsche i tell em push the blue benz
cause when it's over straight parkin lot pimpin
so once i find my keys to the ride
hit the spot around 11: 45
cuz everybody knows that's when it gets hot
tonight i'm gonna find a lil shorty for a player to cop yeah
i need a hot girl for me
a sexy lil mommy
knows how to turn me on
freak me from the night to the early morn
a girl who knows just what she wants
if you see it baby dont front
hair fly and nails done lookin she got one
that's the kind i like i like them girls between the sheets
like them girls iced up like me
i like them girls in the fly gucci
rollin deep in the 6, cartier on the wrist
i like em thick
small waist with the big ol hips
i like them girls in the drop bentley
that's the kind of girl i need
out the corner of my eye spot a shorty
ice so bright baby lightin up the party
she got the prada fitting right on her body
36-24 how could I let her pass me
I approached her with the game on tight
said you's the kind of flavor i like
she said whats up with later tonight
gonna do whatever feels right to you I need a hot girl for me
a sexy lil mommy
knows how to turn me on
freak me from the night to the early morn
a girl who knows just what she wants
if she see baby girl dont front
hair fly and nails done lookin she got one
that's the kind i like i like them girls between the sheets
like them girls iced up like me

i like them girls in the fly gucci
rollin deep in the 6, cartier on the wrist
i like em thick
small waist with the big ol hips
i like them girls in the drop bentley
that's the kind of girl i needi like them girls between the sheets
like them girls iced up like me
i like them girls in the fly gucci
rollin deep in the 6, cartier on the wrist
i like em thick
small waist with the big ol hips
i like them girls in the drop bentley
that's the kind of girl i needi like them girls with the candy thighs
kissable lips
and the big brown eyes
that's the kind of girl i needi like them girls from around the way
shortie got a record and it makes me say
ohh ya ohh ya
that's the kind of girl i need.i like them girls between the sheets
like them girls iced up like me
i like them girls in the fly gucci
rollin deep in the 6, cartier on the wrist
i like em thick
