

White Clouds

DVBBS

We're falling down but never hit the ground
We land on this white clouds
We fall in love but never safe and sound
Our hearts like to roam around

We falling down but never hit the ground
We land on this white clouds

We fall in love, but never safe in sound
Our hearts like to roam around
We land on these white clouds
We falling down, but never hit the ground
We land on these white clouds
We fall in love, but never safe in sound
Our hearts like to roam around
