Sublime

Prong

I comprehend these laws with no particulars The trappings of it all can never give in turn A concept of counsel of the inner wealth Perception of the dark all in you stealthA sublime success control abstinence Sublime success unworldly happiness Sublime success control abstinence Sublime success unworldly happinessA pointed eloquence in its sublimity Precision eminence of all solemnity An acquiescent call for the inner wealth An immolation up for sale for any out to winA necessary call, law A necessary call, callSublime success control abstinence Sublime substance unworldly happiness I comprehend these laws with no particulars The trappings of it all can never give in turn Sublime substance don't need abstinence Control success unworldly happiness
