

# Make My Love Go (feat. Sean Paul)

## Jay Sean

Aye  
It's Sean Paul 'long side  
The mandem called Jay Sean  
Fi di gal dem  
Tellin' 'em again what we tell 'em  
Pass me a drink to the left, yeah  
Said her name was Delilah  
And I'm like, "you should come my way"  
I already surrender  
Damn girl that body's fire  
You gon' remember my name  
(She should give it up, definite)  
You need it  
I need it  
We can jump in the deep end  
I wanna get lost in your love  
I just wanna be close to you  
(Just wanna, I just wanna)  
And do all the things you want me to  
I just wanna be close to you  
(I just wanna, I just wanna)  
And show you the way I feel  
You make my love go...  
You make my love go...  
You make my love go...  
In the morning we gon' do it again, wake up  
I'mma do it like we just broke up and made up  
Get up on top of me and work up a sweat, work up a sweat  
See we can, do it any type of way that you want  
I'm thinking maybe you're the right kind of wrong  
I'm saying baby you won't ever forget my love  
You need it  
I need it  
We can jump in the deep end  
I wanna get lost in your love  
I just wanna be close to you  
(Just wanna, I just wanna)  
And do all the things you want me to  
I just wanna be close to you  
(I just wanna, I just wanna)  
And show you the way I feel  
You make my love go...

You make my love go...  
Girl mi wan' figure hundred hundred and fifty  
Love how you move, you know that I'm with it  
Perfect size, I know that you fit it  
Just let me hit it, you know mi not quit it  
Pon di [?] like Cassie and Diddy  
Mi na wound a mi watch, we like Sin City  
Full time mi run da ting, mi tall legend  
If you don't come gimme dat, would I be offended, my girl  
Come here down, wan' see something me want in life and then waste time  
A you a mi pree every day baby, full time when ya de pon on mi mind  
So mi wine if you give it to me baby girl so we can play  
Stick to the ting, now I am your king, my girl this is what we say  
I just wanna be close to you  
(Just wanna, I just wanna)  
And do all the things you want me to  
I just wanna be close to you  
(I just wanna, I just wanna)  
And show you the way I feel  
You make my love go...  
You make my love go...  
You make my love go...
