

Puppeteer

MAX

You're dripping fire tonight
You're like miracle, you got me feeling so
Ah ah ah hey hey hey hey
Ah ah ah ah, hey hey hey hey
Look like the rest of my life
You're like a centerfold
I wanna make you go
Ah ah ah hey hey hey hey ah ah ah hey

[Chorus]

Girl you're all the rage
So can we turn the page
Tell me little something little more than just your name
I don't bite, but I heard you might
So let me feed your appetite
Where do we go from here
Whisper what you want in my ear
My little puppeteer

[Verse 2]

We don't need clothes to dance
We can take it slow
Or put on a show
Give them give them what they want
Ah ah ah hey hey hey hey

[Chorus]

Girl you're all the rage
So can we turn the page
Tell me little something little more than just your name
I don't bite, but I heard you might
So let me feed your appetite
Where do we go from here
Whisper what you want in my ear, my little puppeteer

[Bridge]

So won't you pull your body close to mine
Tastes like heaven when our lips collide
And I'm hooked and I'm hooked and
I'm hooked I'm strung out on ya baby

Yeah I don't bite but heard you might so let me feed your appetite
