

Join Us for a Bite (feat. Andrea Storm Kaden)

JT Music

Can't wait to meet you
So join the animatronic family
We open real soon
Try your best to hold onto sanity
Come get to know me
And you won't wanna leave after tonight
Down here, we're lonely
And we would love you to join us for a bite
You've been through 20 long, frightful nights
You've seen their faces, felt all their bites
You know our show is so far from over
And Freddy told us you're an organ donor
All eyes are on you
We can walk you through our dark fantasy
Learn what we've gone through
We can teach you to laugh at tragedy
You thought the nightmares ended back at Freddy's
We're all still right here, so let's get friendly
We're feeling festive
Join the party, we'll try hard not to bite
Anger is restless
Don't hold it against us, we're alright
The fun is starting
A celebration that lasts eternally
I'm always watching
Because somebody purple murdered me
We'll be found down deep underground
What have I done to deserve this damnation?
Who knows if you're the one to blame?
'Cause we don't even know your name
But you're here now, and we've got temptations
We're only playing
Just wanted to make a few new friends
You plan on staying?
When you're with us, the party never ends
You might look at me, and think you're going crazy
I lost it long ago, you're not alone baby
Can't wait to meet you
So join the animatronic family
We open real soon
Try your best to hold onto sanity
Come get to know me
And you won't wanna leave after tonight

Down here, we're lonely
And we would love you to join us for a bite
And we would love you to join us for a bite
And we would love you to join us for a bite
And we would love you to join us for a bite
And we would love you to join us for a bite
