

# Doin' Dirt

## Maroon 5

[Intro]

Oh, yeah

Oh, yeah

[Verse 1]

Hey you, don't wanna love you on the telephone

You're hanging up and I am all alone

Baby, you got me doin' dirt, doin' dirt, doin' dirt

And now I wanna find you, but you're on the run

My heart's exploding like a burning sun

I know you like it when it hurts, when it hurts, when it hurts

[Chorus]

Hold me, we're dancing in the dark of the night

You're shining like a neon light

I light you up when I get inside

So won't you touch me? 'Cause everybody's watching us now

We're putting on a show for the crowd

So turn it up, baby, make it loud

[Verse 2]

Hey you, say that you're only havin' fun and then

You call me up at 3AM again

Baby, you got me doin' dirt, doin' dirt, doin' dirt

And now all that I got is just a microphone

To let you know that I am all alone

I know you like it when it hurts, when it hurts, when it hurts

[Chorus]

Hold me, we're dancing in the dark of the night

You're shining like a neon light

I light you up when I get inside

So won't you touch me? 'Cause everybody's watching us now

We're putting on a show for the crowd

So turn it up baby, make it loud

[Interlude]

Yeah, come on

[Bridge]

So right now, I wanna leave with you right now  
I wanna be with you all night, get in the car and let's go  
Yeah, let's take it home, let's take it home, let's take it home  
So right now, I wanna leave with you right now  
I wanna be with you all night, get in the car and let's go  
Yeah, let's take it home, let's take it home, let's take it home

[Chorus]

Hold me, we're dancing in the dark of the night  
You're shining like a neon light  
I light you up when I get inside  
So won't you touch me? 'Cause everybody's watching us now  
We're putting on a show for the crowd  
So turn it up baby, make it loud
