

The Vulture

Pendulum

It's the rise of the vulture
I'm feeling the panic
All those who are nervous
With loss of dynamic Your mind's been poisoned
If your heart is sour
Hear the sound of the war drums We're taking your power
(We're taking your power)
We're taking your power
(We're taking your power) It's the rise of the vulture
Gonna keep on climbing
No chance of escape
No use in hiding
Into the eye of the storm
With the silver lining
To the point where it breaks
Gonna keep on grinding (We're taking your power)
We're taking your power
(We're taking your power) Overboard, under pressure
Overboard, under pressure
Overboard, under pressure We're taking your power
(We're taking your power)
We're taking your power
(We're taking your power)
We're taking your power
(We're taking your power)
We're taking your power
(We're taking your power)
