

# I Wish He Didn't Trust Me So Much

Bobby Womack

I'm the best friend he's got  
I'd give him the shirt off my back  
He knows he can trust me with his life  
But each time he leaves me alone  
Leaves me alone with his wife

I wish he didn't trust me so much  
I think he really trusts me too much

How can he be so blind?  
We've both got the same good taste  
But he should know when he's gone  
Gone on his business trips  
I can't help watchin' his woman  
But I'm losin' my grip

I wish he didn't trust me so much  
I think he really trusts me too much

Though I swear, all is not my will  
But there's somethin' about the way  
The way she make me feel  
Lord, I'm scared, so scared of what I do  
If she starts to feelin' the same way too

You shouldn't trust me so much  
(We got a problem)  
I think you really trust me too much

It's not that she leads me on  
I'm gettin' there all by myself  
But just being with her  
Being with her all alone  
I can't help but hopin'  
That he never comes home

I wish he didn't trust me so much  
I think you really trust me too much

I wish he didn't trust me so much

(We got a problem baby)  
I think you really trust me too much

Though I swear, all is not my will  
(Is not my will)  
But it's somethin' about the way  
The way she makes me feel  
Lord, I'm so scared, scared of what I do  
If she starts feelin' in that same way too

I wish he didn't trust me so much  
(Ooh)  
I think he really trusts me too much  
(Listen to me)

We got a problem baby  
You can see, I'm caught up  
(I wish he didn't trust me so much)  
Caught up in the middle  
(I think he really trusts me too much)  
And I'm down, tired of playing second fiddle
