

# Jealous

Lennon Stella

You say that I go out  
To get you off my mind  
We've been done for a while now  
And, honestly, I'm fine It's not a game that you are losing  
When I'm with someone else and I'm not missing us  
If I can live without you, sue me  
Somebody told me that you think  
I'm tryna make you jealous, jealous  
I do better things with my time  
Than tryna make you jealous, jealous  
Why can't we move on with our lives  
I know you'd rather know, that I'm home  
Alone and in my bed  
Than sleeping with someone new (ooh)  
That treats me better than you did (but) It's not a game that you are losing  
When I'm with someone else and I'm not missing us  
If I can live without you, sue me  
Somebody told me that you think  
I'm tryna make you jealous, jealous  
I do better things with my time  
Than tryna make you jealous, jealous  
Why can't we move on with our lives  
Yeah I've played it out  
The pain that I shouldered over and over  
I'll see you 'round  
When we get older, even though it's over now
