

Body 2 Body

MK

[Intro]

Body to, ooh
Body to body

[Verse 1]

We should take it nice and slow
Feel it all to forget
Pull me in, then let me go
Hold me close 'til the end

[Pre-Chorus]

It's just a little fun, we don't mean it
Don't think about your heart or your feelings
Let's satisfy the (Uh) that we're needing
Just gonna make it last for the weekend, ooh

[Chorus]

Body to body, body to body, body to body
Body to body, body to body, body to body
I need somebody, I need somebody, I need somebody
Body to body, body to body, body to body (Oh, yeah)
Body to body, body to body, body to body
Body to body, body to body, body to body

[Verse 2]

Can't help myself when you call
Want the taste of your skin (Yeah)
We get up close and personal
Then we're strangers again

[Pre-Chorus]

It's just a little fun, we don't mean it (Don't mean it)
Don't think about your heart or your feelings (Feelings)
Let's satisfy the (Uh) that we're needing
Just gonna make it last for the weekend, ooh

[Chorus]

Body to body, body to body, body to body
Body to body, body to body, body to body
I need somebody, I need somebody, I need somebody (I need somebody)

Body to body, body to body, body to body
Body to body, body to body, body to body
Body to body, body to body, body to body
I need somebody, I need somebody, I need somebody
Body to body, body to body, body to body
