

# I Wish You Were Here

HRVY

I wish you were here  
Everytime you disappear  
I'm missing your body let me make it clear  
Everytime you disappear  
I I want you near I-I try to stay cool about it  
Cause you always seem cool without it  
Why do I try I I guess I want you to want me  
But I say that I'm cool about it  
I'm really not cool about it  
Why don't you come on back cause I-  
I really want you to want me You know you're all I think about,  
Don't make me say it out loud  
Cause all I think about is you  
I wish you were here  
(Oh I wish you were here)  
Everytime you disappear  
(Everytime you disappear)  
I'm missing your body let me make it clear  
(Oh let me make it clear)  
Everytime you disappear  
I I want you near I-  
I wish you were here  
(Oh I wish you were here) Taking my t-shirt off  
Making this whole world stop  
Up on a table top  
Making this kitchen rock  
I try to stay cool about it  
Cause you always seem cool without it  
Why do I try I I guess I want you to want me  
You know you're all I think about,  
Don't make me say it out loud  
Cause all I think about is you I wish you were here  
(Oh I wish you were here)  
Everytime you disappear  
(Everytime you disappear)  
I'm missing your body let me make it clear  
(Oh let me make it clear) Everytime you disappear  
I I want you near I-  
I wish you were here  
(Oh I wish you were here)  
Let me dirty up your ear  
Everytime you disappear I'm thinking about you let me make it clear

(Oh let me make it clear)  
Everytime you disappear  
I I want you near I-
