

I Got You

Leona Lewis

[Verse 1]

When the rain won't stop
When you feel unloved
When you try so hard
And it all falls apart
When a promise breaks
When the colors fade
When the world looks grey
And you can't find your way

[Chorus]

I got you ooh
I got you ooh
I got you ooh
Through the darkness
And the heartless
When the rain won't stop
When you feel unloved
When it all falls through
I got you
I will hold your high
I'll be by your side
When it all falls through
I got you

[Verse 2]

When you lose your faith
When you're out of place
When the water's deep
And it's hard to breathe
When the bottles close
When you've lost control
Hope against all hope
So far from home

[Chorus]

I got you ooh
I got you ooh
I got you ooh
Through the darkness

And the heartless
When the rain won't stop
When you feel unloved
When it all falls through
I got you
I will hold your high
I'll be by your side
When it all falls through
I got you

[Outro]
When the rain won't stop
When it all falls through
I got you
