

# Cold Beer

## Colt Ford

[Chorus: Jamey Johnson]

Well just pass me a cold one buddy it's that time again  
That neon sign says open and I'm here with all my friends  
So just keep them taps a flowin' the first round's all on me  
And as long as they keep pourin' 'em hey we ain't gonna leave

[Verse 1: Colt Ford]

Well good God almighty there's a party in here  
And Lord have mercy I'm thirsty pass me a beer  
Been workin' all day, 'bout ready to play  
I done called all my boys and they on their way  
And we ain't going home 'til the sun come up  
And if I'm too drunk to drive I just sleep in my truck  
Won't be the first time and sure not the last  
Got my eye on that blond with the heart-shaped ass  
She been lookin' at me since I walked through the door  
'Bout time for old Colt to twirl around the dance floor  
See if she got a thing for them old cowboys who like to fight  
Raise hell and make a lot of noise

[Chorus: Jamey Johnson]

Well just pass me a cold one buddy it's that time again  
That neon sign says open and I'm here with all my friends  
So just keep them taps a flowin' the first round's all on me  
And as long as they keep pourin' 'em y'all we ain't gonna leave

[Verse 2: Colt Ford]

Well here's the situation the blond wasn't cookin'  
But she came with a friend who was just as good lookin'  
So I eased on over with a bottle of Bud looked her right in the eye  
Said little lady what's up?  
Do you like country boys with a southern drawl  
Who fish hunt and fight say yes ma'am and y'all?  
If so then I might be just your type  
If not what the hell darlin' I won't tell  
Now me 'n' you can ease on outta here  
My truck is out front I got a cooler of beer  
And I'd love to take you for a bite to eat  
Waffle House is still open right down the street  
It's all on me I got plenty of cash

I might fight a grizzly bear for a piece of that ass  
As a matter of fact run and get your friends  
I'll round up the boys we can make some noise

[Chorus: Jamey Johnson]

Well just pass me a cold one buddy it's that time again  
That neon sign says open and I'm here with all my friends  
So just keep them taps a flowin' the first round's all on me  
And as long as they keep pourin' 'em y'all we ain't gonna leave

Well just pass me a cold one buddy it's that time again  
That neon sign says open and I'm here with all my friends  
So just keep them taps a flowin' the first round's all on me  
And as long as they keep pourin' 'em y'all we ain't gonna leave
