

You and Me

Shallou

Shadows faded black

Lovers losing track

Bashful

We always hide our cracks

Youthful

Cause we never turned our backs

It's just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Bashful lovers, just you and me

We take it slow, just you and me

Falling backwards, just you and me

Sink so low, just you and me

Bashful lovers, just you and me

We take it slow, just you and me

Falling backwards, just you and me

Sink so low, just you and me

Blankets, hold us tight

Whisper, please take this right

Cause we're bashful

We'll forever burn inside

Trust that, this is not goodbye

It's just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Bashful lovers, just you and me

We take it slow, just you and me

Falling backwards, just you and me

Sink so low, just you and me

Bashful lovers, just you and me

We take it slow, just you and me

Falling backwards, just you and me

Sink so low, just you and me

Wish that I could say more, say more

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Just you and me (wish that I could say more, say more)

Wish that I could say more, say more

Wish that I could say more, just you
