

Machine

Born of Osiris

Take another look at yourself
Tell me what do you see?
What do you see?
Your soul's reflectionIs it
What it used to be?So take another look at yourself
Tell me what do you see?
Answers revolve around our headsLike figures of our imaginationMeasures are taken to purge
pleasure and take life in as pain
This is bigger than you and me
Cuz this is bigger than you and meAlarms as you wake from this dream
Human fellowship is sacred
Cuz this is bigger than you and me
Take another look at yourself
Tell me what do you see?
What do you see?Your soul's reflection
Is it
What it used to be?
So take another look at yourself
And tell me what do you see?
As we move along waiting hereOur days repeat and increaseYour default setting
Runs your life secretly
Which direction are you heading
Escape the pressure
This is bigger than you and me
Alarms as you wake from this dreamHuman fellowship is sacred
Cuz this is bigger than you and me
Alarms as you wake from this dream
Human fellowship is sacred
Cuz this is bigger than you and me
Separate yourself from the machine
Embrace your own identitySeparate yourself from the machine
Embrace your own identity
Escape the pressure
Take another look at yourself
Tell me what do you see?
What do you see?
Your soul's reflection
Is it
What it used to be?
So take another look at yourself
Tell me what do you see?
Your soul's reflection

Is it what it used to be?
Your soul's reflection
Is it what it used to be?
What do you see?
