

# Easy

Ella Mai

I'll fix the strings and play my part  
I know the pain that's in your heart  
I've tread the distance, near or far  
Just wanna be right where you are I know love has been a stranger to you  
Maybe I'm the one to change it for you  
Won't be easy 'cause lessons feel new  
But the writing on the wall Love is easy, easy  
So don't you make it hard  
Can't you see me, see me, see me?  
Be easy with my heart  
All we got is here and now  
Why won't you let your guard down?  
I'm just tryna show you how  
Love is easy  
So don't you make it hard  
I'll chase the wind, I'll face your dark  
I'll make a wish upon your star  
Although you're afraid, I'll be your heart  
Just let my hands reach your scars I know love has been a stranger to you  
Maybe I'm the one to change it for you  
Won't be easy 'cause lessons feel new  
But the writing on the wall Love is easy, easy  
So don't you make it hard  
Can't you see me, see me, see me?  
Be easy with my heart Oh, take your time, no need for rushing things  
Baby, don't you know that with me, you're safe?  
The easy option is to run away, don't run away  
To hide from love, oh baby, what would it change?  
I been thinking 'bout some bitter days  
Lots of pressure, all I'm tryna say is  
Love is easy, easy, yeah, yeah  
So don't you make it hard  
Don't you make it, so don't you make it hard  
Can't you see me, see me, see me?  
Can't you see me?  
Be easy with my heart, my heart, my heart, my heart  
All we got is here and now  
All we got is here and now  
Why won't you let your guard down?  
I'm just tryna show you how  
Love is easy, so easy, so easy, yeah  
So don't you make it hard

Oh, oh
