

Body Language

Jesse McCartney

Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
'Cause what you want is right here
Oh she, oh she so international
The way, the way she get it on the floor I'm tryin', I'm tryin' to holler at you
I want to get to know you better
Parlez vous francais?
Konichiwa Come and move in my way
Hey, little chica from Guadalupe
That thing you got behind you is amazing
Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense
It's her, her body, her body, her body language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her body
That make me want to say hey...('ey!)
Hey...('ey!) Hey...('ey!)
It's her, her body, her body, her body language
C'mon
Shorty, let me whisper in your ear
Tell you everything you wanna hear You got my vote: Hottest Girl of the Year
Let's have a celebration, baby
Parlez vous francais?
Konichiwa
Come and move in my way
Hey, little chica from Guadalupe
That thing you got behind you is amazing
Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense It's her, her body, her body, her body
language
It's her, her body, her body, her body language
The way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her body
That make me want to say hey...('ey!)

Hey...('ey!)Hey...('ey!)
It's her, her body, her body, her body language
C'mon
I'm lifting up my voice to say
You're the hottest girl in the world todayThe way you shake
You got me losing my mind
You're banging like a speakerbox
Turn around; the party stops
Universal lady, let me take you away
Now, I don't speak Spanish, Japanese or French
But the way that body's talkin' definitely makes sense nowIt's her, her body, her body, her body
language
It's her, her body, her body, her body language
It's the way she moves around
When she grinds to the beat
Breaking it down articulately
It's her, her body, her body, her body language
It's her, her body, her body, her body
You make me want to say hey...('ey!)
Hey...('ey!)
Hey...('ey!)
It's her, her body, body, body language
C'mon
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
Ooo, that body's like music to my ear
'Cause what you want is right here
