

Country Interlude

Chester French

When I stay awake
Never take a break
Eyes begin to ache
All the way

When I stay inside
Never close my eyes
Always close the blinds
All the way

I live on a boat
In a moat, castaway
By day
You can say what you will

You live in a town
In a town that is brown
Not white
That's suburban flight

When I raise a hand
Not in my command
Hit the baby grand
All the way

Can I get a rise?
Make a big surprise
Live between her thighs
All the way
