

Together (From the Motion Picture "Music")

Sia

Ooh, together
We can take it higher I can hear the thunder
Coming from your mouth
And I know my number's up
Give me some Stevie Wonder
Quick, put it on before we go under I can see the lightning
Coming from your ears
Yeah, I see you're frightened
I can see the lion
Sleeps tonight in the tears you're crying Oh, you can't love me unless you love you too
Treat yourself like nothin' but a fool
Can't love me unless you love you too
Love you too
Come now set the past on fire
Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher I can see the rainbow
Coming from your heart and it's all ok so
Come now, see you're my angel
So say Bye to the past, Hello to tomorrow Oh, you can't love me unless you love you too
Treat yourself like nothing but a fool
Can't love me unless you love you too
Love you too
Come now set the past on fire
Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher I want love, I want to give it
I want love, please deliver it
I want love, I want to give it
I want love, please deliver it
I want love, I want to give it
I want love, please deliver it
I want love, I want to give it
I want love, please deliver it Come now set the past on fire

Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higherOoh, together, we can take it higher
Ooh, together, we can take it higher
Ooh, together, we can take it higher
Ooh, together, we can take it higher
