

Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher
Come now set the past on fire
Stand up raise your face to the sky, my love
Together, we can take it higher
Oh, together, we can take it higher Ooh, together, we can take it higher
Ooh, together, we can take it higher
Ooh, together, we can take it higher
Ooh, together, we can take it higher
