

Follow Me (feat. J.Hart)

Vicetone

Lights are faded on a dark streets
Heartbeats don't lie
Something's going down tonight
We're two comets on a last call
Crash course right here
Something's going down tonight Don't need forever I need to know
If I go will you follow me home?
Don't want tonight to end on my own
If I go now...
Will you follow me?
Save me from the life I know
Will you follow me? Only for the night don't go oh... Now, we're running through the dark
streets
Heartbeats so loud
Somethings going down tonight
Two souls just dying for distraction
Action, I know
Something's going down tonight Don't need forever I need to know
If I go will you follow me home?
Don't want tonight to end on my own
If I go now... Will you follow me?
Save me from the life I know... oh
Will you follow me? Only for the night don't go oh...
Follow me
Oh let me wrap you up
Let me breath you in Oh...
Cause oh when the sun comes up
We'll be cold again, Oh...
Tonight we could say it's love
We could just pretend, Oh...
So when the sun comes up we'll be cold We'll be alone, we'll be alone, Ohhhh
Will you follow me?
Save me from the life I know Oh...
Will you follow me? Only for the night don't go oh...
Come and follow me
Wrap around my restless soul Oh...
Will you follow me?
Only for the night don't go oh...
