

# Wow (feat. Angie Martinez)

## Funkmaster Flex & Big Kap

Look at me, Angie  
Let's go, let me hear it  
Come on, let's do it now  
Just move around  
Move to the sounds  
Look at me, Wow!

Look at me and how I put it down  
I was working while you stood around  
See, I don't got to be the best chick  
But for the heat ya'll know who to get with  
Whether you knock it in your Benz of your Lexus  
If you go the bracelet of the necklace  
If you want to O.D. or just test this  
It don't matter cause we coming on some neck shit  
I bet this be the one that takes the world  
Even though some of ya'll want to hate the girl  
But watch your mouth, I'm the type that run the show  
Plot the low, quick get your money and go  
See ya'll ain't really nothing to me  
All day you hear my name and got something to say  
But I'm a chill, lay it down, make a hit and do me  
Angie, up close don't worry you'll see  
Come on, let's do it now  
Just move around  
Move to the sounds  
Look at me, Wow!

Whatcha gonna do now  
I'll make it real hot, let me cool down  
Look I don't care what other people doin  
I just wanna spit and try to keep it movin  
What they gonna say when a bitch drop hits  
Ya'll niggas ain't never gonna stop this  
Watch this, you ain't never gonna top this  
On your hot list, shit is just monotonous  
You ain't never gonna be hot, shit  
You rap mad like De-Da  
Me I stay cool, I know the remedy  
Make sure you cats all remember me  
I ain't never wanna fall I wanna ball hard  
And leave the hatin muthaf\*ckas all scarred  
You got no points on the score card  
So you can't be a part of the all-stars  
Come on, let's do it now

Just move around  
Move to the sounds  
Look at me, Wow!  
Look at me getting cocky wit it  
When its on then its on, ain't no stoppin wit it  
Ride the beat like my Poppy get on top of it  
Knockin it for them f\*ckas that be poppin shit  
Keep the development, and how she rock it so eloquent  
Not to wreck with, resources to dead shit  
Well-connected, well-respected  
It the Big Kap, Ange, Funk Flex shit  
Come on, let's do it now  
Just move around  
Move to the sounds  
Look at me, Wow
