

Just Right for Me (feat. Lil Wayne)

Monica

She so good for me
Mr. good stuff, Mrs. good stuffin', good lovin'
Watch me pull up till I pour somethin' on a full stomach
Take her out to eat like I'm hungry if you're hungry
Hopin' it off, then droppin' her off
Then toppin' it off with a muah on her jaw
And a smack on the ass, and a call me tomorrow
And a walk to the door and a honk on the horn
Got Monica on my playlist and she on my bae list
But since I got a situation I use imagination, all right
Baby, baby, baby, baby, Tunechi
Cant no one come take me from my baby
Like I can give my heart and all my time
Gotta keep my lovin' on your mind
Oh you got me goin' so far and deep
I can't control it We're meant to be together through the times
Cause you're just right for me
Boy you know your love's the best
And it's just right for me
And I don't care about your past
Cause you're just right for me
Just right for me
Baby, baby, baby, baby, it's like you're always tryna keep me happy
So you know what a wife like me gone do
Got me thinkin' on the two that made you
Oh you got me goin' so far and deep
I can't control it
We're meant to be together through the times
Cause your just right for me
