### IDGAF

I bet she wanna fuck, but she don't give a fuck  
Only give it up. When I don't give a fuck  
Make it work for you. Pussy pay the bills

### Verse

Fill my room with teen spirit just to lift me up  
Flows wavy quote lyrics from my sippy cup  
Can't focus when she holding on my mushy nuts  
Legs open up like doors. She like Elon musk

Got the meanest butt. She the meanest but  
I got blinded by her beauty never seen her love  
It's hard to show assuming that I seen enough. Yo  
I was told don't let simple fling turn into love

Cut it shorter than lesbian hair  
All out of fucks I can't even care  
Told Bruva to hand me beer  
There's beauty in a fire. The Smoke needs to clear

Look you in your eye. You so full of fear  
A few of them survive. Most disappear  
I won't be all surprised. Hoes ain't real rare  
The noise makes it quite as I breathe and stair

I bet she wanna fuck, but she don't give a fuck  
Only give it up. When I don't give a fuck  
Make it work for you. Pussy pay the bills
