

La'hov

Mates of State

Thought about who you are
Your daddy's alright
(But you fold it up to weather)
Your daddy's alright
(You bet he's alright)Thought about who you are
Your daddy's alright
(But you fold it up to weather)
Your daddy's alright
(You bet he's alright)Thought about who you are
Your daddy's alright
(But you fold it up to weather)
Your daddy's alright
(You bet he's alright)
Thought about who you are
Your daddy's alright
(But you fold it up to weather)
Your daddy's alright
(You bet he's alright)Get off your ass before you go
You never looked up
You never looked upShould I try to undo
(Your father said you never looked that alive)
The words that I just said
(A-huh-huh hey-ey-ey)
Replace them with your words instead
(Nobody says you ever looked that alive)
With your words instead
A huh-huh hey ey-ey
Get off your ass before you go
You never looked up
You never looked upShould I try to undo
(Your father said you never looked that alive)
The moves that I just made
(A-huh-huh hey-ey-ey)
Replace them with your moves instead
(Nobody says you ever looked that alive)
With their sentiment
A huh-huh hey ey-eyGet off your ass before you go
You never looked up
You never looked upThought about who you are
Your daddy's alright
(But you fold it up to weather)
Your daddy's alright

(You bet he's alright) Thought about who you are
Your daddy's alright
(But you fold it up to weather)
Your daddy's alright
(You bet he's alright) Your daddy's alright
Your daddy's alright
Your daddy's alright
(You want it for)
Your daddy's alright
(You want it for)
Your daddy's alright
(You want it for)
Your daddy's alright
(But you fold it up and your daddy's alright)
Thought about who you are
(Your daddy's alright but you fold it up and)
Your daddy's alright
Your daddy's alright
Thought about who you are
(Your daddy's alright,
your daddy's alright but you fold it up and)
Your daddy's alright
